## Gynecological Ultrasound Scanning

Michigan State University  
College of Osteopathic Medicine  
Statewide Campus System Ultrasound Course

### Gynecological Standardized Patients Needed

**\$200.00 per course**

The MSUCOM Statewide Campus System offers a Gynecological Ultrasound Course for first-year gynecological resident physicians. This two-part course includes a half-day event for hands-on learning how to scan gynecology patients.

We are looking for females who have a uterus and ovaries between the ages of 18 and 45, and are willing to commit to approximately 3.5 hours of time for trans-vaginal ultrasound scanning by faculty-supervised gynecology residents on:

**Thursday, October 6, 2022, from 1:00- 4:30 pm**

**Held at the James B. Henry Conference Center  
3535 Forest Road (next to the University Club)  
MSU**

**You will not be scanned during this entire time** – only part of the time, but we would need you on-site from 1:00 pm-4:30 pm.

Payment from Michigan State University will be mailed to you after the course. You will need to provide information for payment on the day of your participation.

If interested or for further information:

**please contact Leslie Lopez at [lopezle1@msu.edu](mailto:lopezle1@msu.edu) or 517-432-0489.**  
Thank you for your willingness to participate in the training of future obstetricians/gynecologists.
